What is the MAUS HUB – cloud platform

The MAUS HUB is a complete "all in one" cloud software platform that can customised for your business. It includes 5 key areas from Business Planning through to implementing continuous improvement systems.

The **MAUS HUB** has over 8 different applications in one platform

The MAUS HUB will help you to improve your business in 4 key areas:

MAUS HUB
Business Planning

Less than 10% of strategies are successfully executed in the average business. Use the MAUS HUB to write and implement a business plan and keep your staff accountable to goals and targets.

MAUS HUB
Exit Planning

Preparing to sell your business is one of the most daunting tasks for any business owner. The MAUS HUB gives you the confidence and knowledge to prepare your business for sale and provides you, with the best chance of a successful sale.
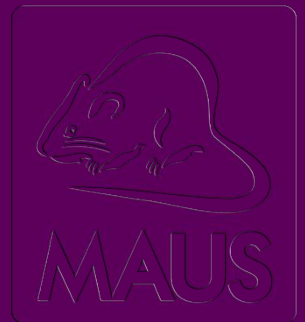

MAUS HUB
Human Resources

High performing employees are your greatest asset, however research shows 70% of staff are not engaged. The MAUS HUB will help your business to grow by converting your staff into high performers.

MAUS HUB
Health & Safety / QA

Any business owner has a responsibility to ensure the health & safety of workers through a quality management system. The MAUS HUB aims to manage any psychology or physical safety risks that are involved in the workplace.

MAUS HUB Platform Capabilities

Choose from any of the following solutions...

Why are business goals & accountability so important?

Businesses make a profit if they execute or implement their strategies.

Low profitability

Research indicates that only 39% of small businesses are making a profit.
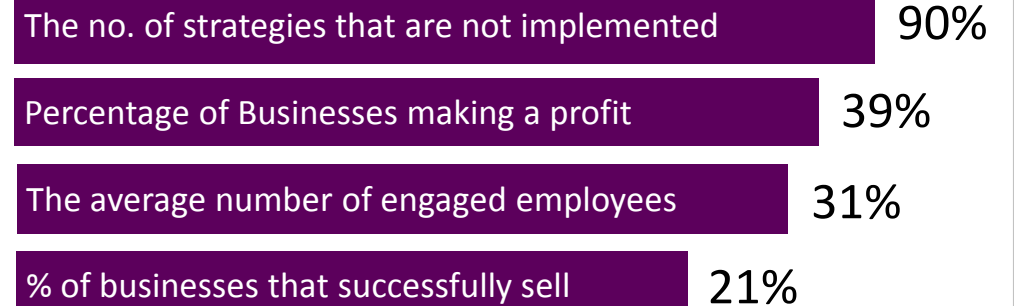

Low accountability

A global study indicates that in the average business only 31% of employees are engaged.

Your business opportunity:

- Use the MAUS HUB to establish the high level goals and success factors of your business during a one off diagnostic assessment
- Customise the software for your business and discuss how this will be implemented and at what level and within what timeframe.

Key SMB challenges

The following business challenges face all CEO's and Business Owners and managers around the world.

The no. of strategies that are not implemented	90%
Percentage of Businesses making a profit	39%
The average number of engaged employees	31%
% of businesses that successfully sell	21%

Curt Tebbutt, Effectus - "The cloud based MAUS Hub - KPI dashboard module is great for **keeping people accountable**. The fact that it is so visible means everyone is clear about objectives & performance….Every business should have it."
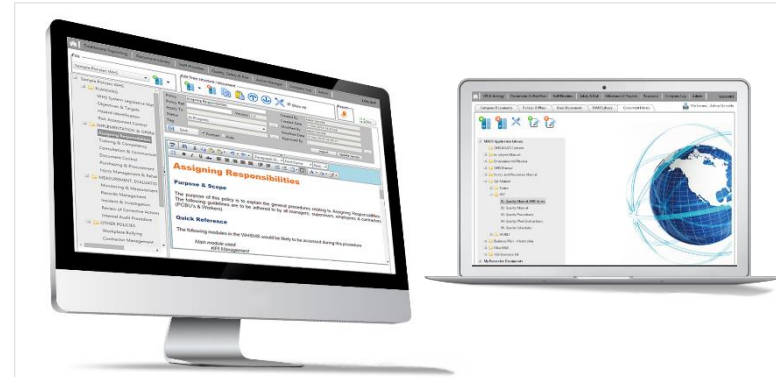

Phase #3: Culture, change and sustainability

High performance organisations must stay committed to an agreed set of systems, standards & workflows

Achieving legal compliance is a major priority for many organizations. Manage your health and safety needs in the most simple, affordable and cost effective way possible.

MAUS Hub Software
> Health & Safety Module

Systemise your business and publish all documents and forms into a central location. This ensures that all staff, external contractors, and even suppliers are able to easily access vital documentation and forms to complete their tasks.

> Policies Manager / Document Library

Why is workplace health & safety important?

Creating a safe work environment is critical to the success of your business, and is one of the best ways to retain staff and maximise productivity.

95% of small businesses account for the Australian Market

4.8 million workers are potentially at risk everyday

What's in it for my business?

The MAUS Hub software helps:

- Ensure that your business doesn't create health and safety problems for your employees, customers or the public.

- Avoid unnecessary costs and damage to your business caused by workplace injury and illness.

- Provide your business with a strong foundation to achieve long-term success.

Phase #4: Exit & Succession planning
Increase the value of your business for sale

Review the value of your business now and what it could be in 1-5 years. Its important to understand the importance of non-profit building activities to boost the overall value of their business.

Preparing to sell your business is one of the most daunting tasks for any business owner. Review the businesses attractiveness to a potential buyer and then work on a 22 step readiness plan.

MAUS Hub Software
> Value Gap Calculator

MAUS Hub Software
> Exit Planner Pro

Why is succession planning so important?

You've worked hard to build your business, so you want to achieve maximum price when it comes time to sell.

50% of Business Owners are over the age of 50

70% of SMBs do not have a well-thought-through exit and succession plan, and only 21% exit successfully

What's in it for business owners?

The MAUS Hub software helps:

- Establish the current attractiveness level of the business to a potential buyer.

- Undertake a value gap analysis to estimate the current and future value of the business, identifying key-points to achieving biggest ROI. Chance to explain for business owners to understand the multiplier effect.

- Develop an exit readiness plan and set up an exit planning monthly meeting to transition the business to new owners. This ensures a faster, easier sale.

MAUS HUB is the solution

- All your key business information in the one convenient location.

- The complete turn-key system allows you to establish cutting edge management systems to drive improved performance and increase financial success.
