Solutions to private practice

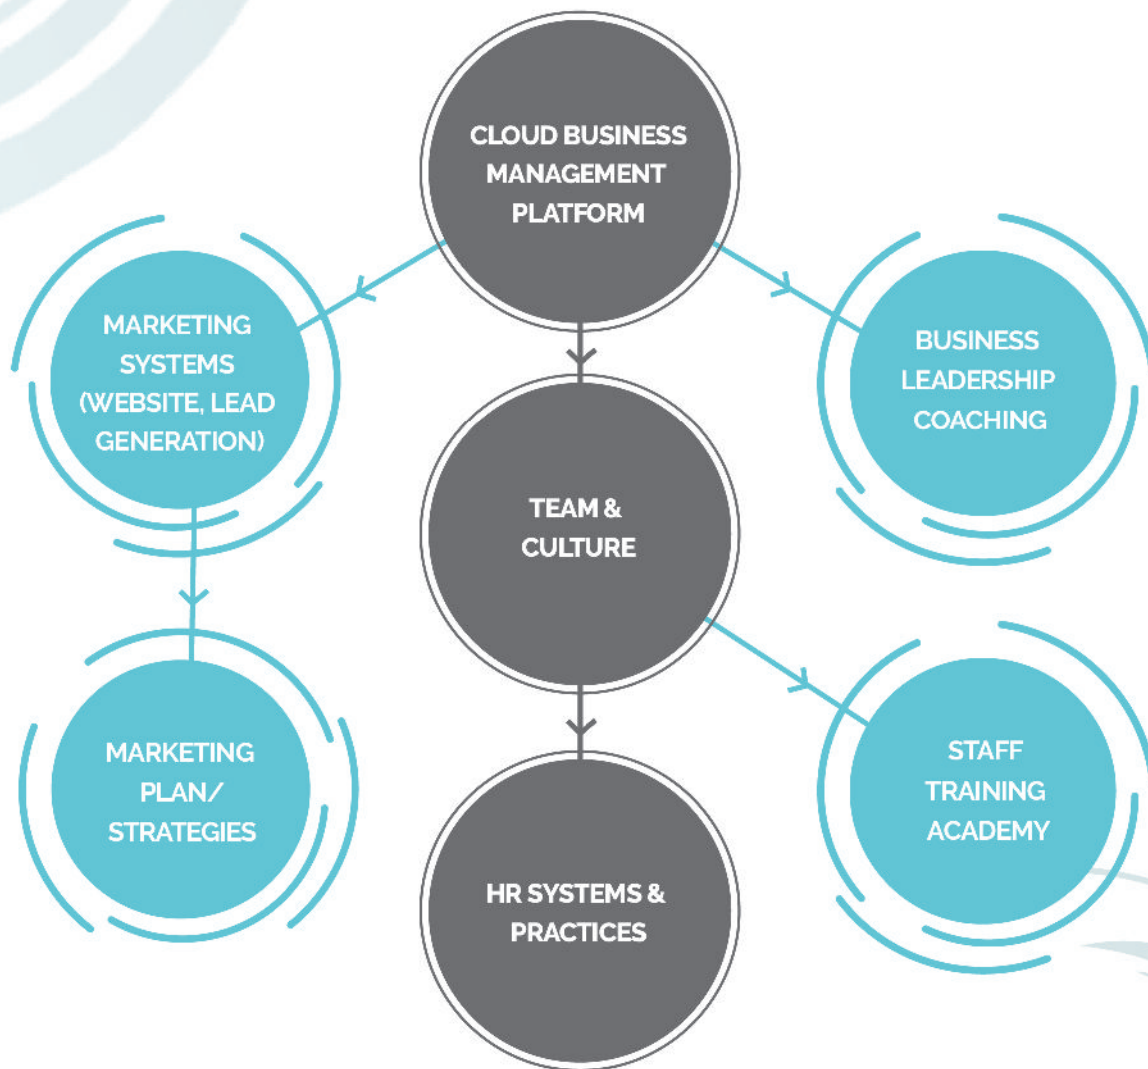

About Indigo Medical Consulting

Indigo Medical Consulting Services have been working exclusively with specialists, surgeons, dental and allied health practitioners for over 15 years.

Bernadette Beach is the CEO of Indigo Medical Consulting Services and through her extensive work with private practitioners realised that there was a gap in the industry in providing a business solutions model for private practice.

Through expertise and research, Bernadette has produced a private practice business model that provides and supports existing practices and brand-new practices with the systems, processes, tools and resources to manage and grow their practice.

Whether you are a brand-new practice, rebranding your practice or an existing practice, we offer the following marketing solutions:

- Landing Page Lead Generation
- Brochures and flyers
